- 8 Thieme's view on the origin of the human soul is that God ___ life to a format-soul
- 10 ___ examination of a being reveals that living things have souls (immanent power) and this matches perfectly the description of soul in Greek lexicon (BAGD). Note how even pastors with extensive Greek training miss this due to false modern philosophical presuppositions that blind them.
- 11 My passion at FBC is to get believers to connect with ___ for themselves instead of depending upon a PT for fundamental truths.
- 15 The greatest issue in life is really ___ the Good. It is in the Good that we glorify God in all circumstances.
- 16 The view on the origin of the human soul that teaches that the soul comes directly from God.
- 17 The soul does ___ in a living being.
- 19 Teaching that the soul resides in the ___ is an illustration of what happens when ICE pastors adopt modern false philosophical concepts due to rejection of classical philosophy (PR). A simple study of soul in Genesis and Revelation alone shows that the soul is the life principle in all living things. This shows the pernicious influence of modern philosophy on biblical exegesis.
- 22 All of our sufferings are either related to discipline (out of fellowship) or design to ___ our faith (Js. 1:2-4). In true growth a believer goes from loving God from time to time to becoming a lover of God.
- 23 For many years people thought that the ___ (Clever Hans) could do math (which requires intellection). They later realized that the horse was cuing on people after they stopped giving answers to the questioner. Only man has intellection which is immaterial and demonstrates that man's soul is immortal.
